

NANA KWAME OWUSU-AMPIAW

+1(272)-788-1324 Lewisburg, PA noa001@bucknell.edu <http://linkedin.com/in/nana-kwame-owusu-ampiaaw>

EDUCATION

Bucknell University, College of Engineering | Lewisburg, PA

Bachelor of Science; Electrical Engineering

May 2028

- GPA: 3.62/4.00
- Relevant Coursework: Introduction to ECE Design, Circuit Theory, Foundations of Digital Systems, Introduction to ECE
- Study Abroad: Management and Sustainability in Scotland

Prempeh College | Kumasi, Ghana

High School

Oct 2018 - Oct 2021

WORK EXPERIENCE

Uptown & Weis Center, Bucknell University | Lewisburg, PA

Technical Staff

Feb 2025 - Present

- Work with performers and Uptown & Weis Center technical managers to provide appropriate technical support for events
- Operate sound and lighting equipment for events and also ensure all equipment is maintained in pristine condition

Thomas V. Giel Garage Doors LLC. | Gibsonia, PA

Intern

May 2026 - Aug 2026

- Assisted field technicians in installing automated garage doors, retractable awnings, and automated phantom screens
- Calibrated safety sensors, adjusted door and screen stop limits, and programmed garage door operator controls to ensure consistent safety performance
- Served as a warehouse associate, supporting warehouse maintenance and coordination, and learning to use power tools

Civil Engineering Department, Bucknell University | Lewisburg, PA

Researcher

Jun 2025 - Aug 2025

- Develop Python scripts to model mathematical solutions to diffusion in porous media
- Executed simulations to generate numerical solutions for barrier diffusion, and a comparative analysis against established analytical solutions across various time scales

LEADERSHIP & COMMUNITY ENGAGEMENT

Green Solutech | Accra

Founder

Oct 2023

- Founded and led a team of 3 to build an Arduino non-contact dustbin with an ultrasonic sensor and servo motors that opened automatically upon approach
- Tutored the students of Bishop Mixed JHS on the process of building the dustbin and aimed to raise e-waste awareness

Peer2Peer Math Club, Prempeh College | Kumasi

Co-founder

Apr 2021 - Aug 2021

- Co-founded a platform to connect peer tutors to students at Sofoline and assisted with their assignments
- Assisted peers with math concepts and boosted test scores before the National exams (WASSCE)
- Tutored and mentored 60+ students and helped improve test scores by 25%

PROJECTS

Sustainability Course, Bucknell University | Lewisburg, PA

Student

Aug 2024 - Oct 2024

- Analyzed building energy data and prepared findings on a smart microgrid prototype for Bucknell University's SELL Building
- Demonstrated a projected 15% reduction in energy use through automated appliance regulation, energy storage, and grid sell-back capabilities
- Presented project outcomes to faculty and engineering peers, highlighting technical and practical innovations

Introduction to ECE Design, Bucknell University | Lewisburg, PA

Student

Aug 2025 - Dec 2025

- Developed an ESP32-based IoT monitoring system with sensors and visual indicators, collecting and analyzing real-time data via ThingSpeak

- Managed wiring, system integration, debugging, and documentation, ensuring operation and clear technical records

TECHNICAL SKILLS

Skills: Soldering, Hardware Debugging, Measurements and Instrumentation, Circuit Design and Simulation, MATLAB, Arduino, 3D Printing, Hand and Power Tools, Adaptability, Problem Solving, Communication, Detail-Oriented, Critical Thinking, Office Suites.

Interests: Environmental Issues, Electronics, Energy, Football(Soccer), Pickleball, Cars, Photography
